Forecast for Sunday 01 Dec 2024

Weather: Wet and cloudy start as outbreaks of occasionally heavy rain and drizzle moves eastward. Rain turning lighter and patchier through the morning. Patchy showery rain and drizzle through the afternoon with some brighter spells possible in-between. Further spells of mainly light rain expected through the evening, with some showers overnight.

Chance of cloud-free hill tops above 600m: Little chance for much of the morning. Around 40% from midday to mid-evening, lowering from the west to 20% during the evening.

Low cloud and visibility: Periods or persistent cloud 400-600m, with patches to lower levels in heavy rain or drizzle during the morning and later in the evening. Cloud lifting during the afternoon, perhaps becoming more occasional, above 600-750m at times from midday especially further east and south. Bases lowering in the evening rain to around 500m once more. Away from cloud, visibility good falling to moderate to poor in rain and drizzle.

Meteorologist's View

Feeling cool on the highest summits despite the mild temperatures.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
03:00 on Sat 30 Nov 2024	7.2mm	7.4mm	8mm

Forecast for Monday 02 Dec 2024

Weather: Rather cloudy Monday morning with occasional showery rain. Cloud breaking by late morning to leave sunny spells with a few well-scattered showers, these falling as a wintry mix on the higher summits. Showers dying out by evening away from western slopes, with long clear spells and a sharp frost developing.

Maximum wind: West or northwesterly 10-15mph gusting 25-35mph. Easing 5mph later in the afternoon.

Chance of cloud-free hill tops 600m: 30% at first. Improving as rain clears to 60%, perhaps 80% in the east.

Low cloud and visibility: Periods or persistent cloud around 450m, with lowest bases in the west during morning rain. Cloud becoming occasional above 600m from midday, best of brightness in the east. Visibility good becoming excellent, but falling moderate in rain and poor in drizzle and wintry showers.

Temperature: **Valleys:** Plus 8 Celsius at dawn rising to 10 Celsius. Falling to Plus 4 in the evening.
At 600m: Plus 5 Celsius, falling steadily to Zero Celsius through the day.
Freezing level: Above the summits gradually falling to 600m.
